Company:

SoftElegance is a **global IT services and software development company** founded in 1993. Over the past two decades, SoftElegance has been providing outstanding IT consulting services to a variety of clients in **North America** and the **European Union**.

Companies ranging from small and medium to Fortune 500 use SoftElegance's services for implementation of **SaaS systems, sophisticated enterprise integration solutions, engineering applications**, **business processes automation software**, and more.

SoftElegance offers software development services across **diverse industries** and brings a range of solutions and products that enhance client companies' performance and competitiveness.

Industries:

SoftElegance has created software solutions for **dozens of clients** on approximately a **hundred projects**.

SoftElegance has **deep domain expertise** in creating software solutions for the following industries:

Oil & Gas;
Manufacturing;
Finance/FinTech;
Health Care;
Retail;
HR Management;
And more...

Services:

SoftElegance offers a wide range of IT consulting services to help our clients build innovative software solutions that enhance their organizations.

▶ **Custom software development and integration services**, which include full development lifecycle, from inception to final delivery, post go-live support, and enhancements. SoftElegance has been partnering with some clients for as long as 10-15 years, providing excellent service in maintaining their business and **mission critical systems**.

▶ **Dedicated development teams and R&D centers** — a proven business model for outsourcing and innovating — combine advantages of **highly skilled** and **cost-efficient** offshore resources with the full client's control over project management and budget. We can form high end R&D teams, specific to certain domains and industries, helping companies to **innovate and transform** their businesses.

▶ A variety of **IT consulting services**, such as **technical architecture assessments**, **vendor's evaluations**, and **technology research** tasks.

When you work with SoftElegance, you benefit from our deep expertise in up-to-date technology and gain a strategic partner who helps you meet the most demanding enterprise needs

Technologies and Platforms:

SoftElegance's software architects, project managers, developers, business analysts, QA managers, and testers use the most **up-to-date technologies, platforms, and approaches**:

- ▶ **Software-as-a-Service**, Single-Page Applications, Service-Oriented Architecture;
- ▶ .NET Framework: ASP.NET MVC, ASP.NET Web Forms, WPF, various ORMs;
- ▶ Enterprise Service Bus, Messaging platforms, **Enterprise Integration**;
- ▶ MS SQL Server, **NoSQL databases**, and various BI tools;
- ▶ **Cloud solutions** for Amazon Web Services, Windows Azure;
- ▶ HTML5, JavaScript libraries, front-end frameworks (such as AngularJS);
- ▶ **Big Data Analytics**, Machine Learning, Artificial Intelligence;
- ▶ Diverse issue tracking, project management, and version control systems.

SoftElegance applies industry's best practices, methodologies, and guidelines (**Agile, RUP, CMMI**) to internal work flows and project management, delivering software solutions on time, with high quality, and within a budget.

IF YOU CAN DREAM IT, WE CAN BUILD IT
